BUFFALO AND CHICAGO LINE OF STEAMBOATS.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Docks, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

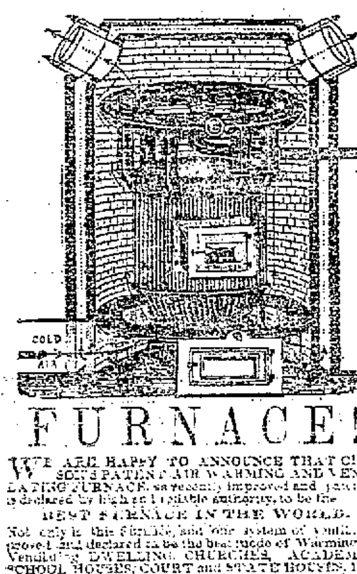
CHILSON'S PATENT
World's Fair Prize Medal.



FURNACE!

WE ARE HAPPY TO ANNOUNCE THAT CHILSON'S PATENT AIR WARMING AND VENTILATING FURNACE, as recently improved and patented, is declared by high and reliable authority, to be the
BEST FURNACE IN THE WORLD.

Not only is this furnace, and our system of ventilation, proved and declared to be the best mode of Warming and Ventilating DWELLINGS, CHURCHES, ACADEMIES, SCHOOL HOUSES, COURT and STATE HOUSES, HOSPITALS, STORES, &c., in nearly all the cities and towns in the United States, but is meeting with equal favor in the CANADAS, ENGLAND, RUSSIA, and other Foreign Countries. It has been awarded at the recent Fairs in this country, gold and silver medals, first premiums, and lastly the Great Prize Medal at the World's Fair, London. It has been subjected to the most rigid investigation and severe practical tests, and unanimously declared the best—(See the printed reports of the Fairs, also city and state public committees on public buildings.) We have more than twenty-five hundred references, many of whom are professional gentlemen, whose scientific attainments in such matters are well known. To attain this desirable object, the inventor of this Furnace first abandoned the manufacture of the common cast iron air furnaces seven years since, under the settled conviction that red hot iron furnaces burn the oxygen out of the air, producing an unhealthy, scorching, disagreeable odor, unfit to be inhaled by human beings, besides the constant cracking and burning out of the pots, which permits the poisonous gases to escape and mingle with the air, and the annoyance and expense of repairs, new pots, etc. He now has the satisfaction of knowing that his efforts to secure a *healthful, economical* and *durable* apparatus, for thoroughly warming and ventilating buildings, has been entirely successful. They possess the following advantages: [illegible] of air, economical, [illegible] for burning anthracite, bituminous coal or wood, all equally well—[illegible] easily cleaned out—[illegible], not liable to repairs for a life time, a perfect safety against setting buildings on fire in which they are located; may be set in a few hours.— Sizes for all classes of buildings. Also, a sizes of new and superior PORTABLE FURNACES.—Dr. Cook's Improved Boston School Stove.

SAUGATUCK IRON WORKS,
WESTPORT, CONN.
OFFICE NO. 5, NASSAU STREET, NEW-YORK.

WE DESIRE TO CALL ATTENTION TO THE following articles which we are manufacturing for Railroad companies, to-wit:—Car wheels and axles, boxes and pedestals, wheel presses, locomotive drivers and cylinders, screw cutters, drilling machines, switch stands, levers and targets, frogs, head and heel blocks, chairs, and all castings connected with Railroad superstructures.

WHEELS.—Nearly two years since we commenced business, with the view of making wheels. We were then informed by gentlemen whose intelligence and experience entitled their opinions to great weight, that the wheel was imperfect, and advised us to attempt its improvement.—With every desire to succeed, we commenced an examination of the various patterns in use, to ascertain and secure the best. We soon became convinced that a majority of the patterns would prove satisfactory, if the iron of which they were made was sufficiently strong and properly chilled. Since then, we have left no means unemployed that we could control, to procure a new and stronger combination of iron than heretofore used, and feel confident that we have succeeded, with which we are now manufacturing double and single plate and spoke wheels, fully guaranteed as regards strength and perfect chill. Within sixty days we will be able to supply limited orders with "Whistler's Express" and "Whistler's Single Plate" wheels. From the material used in, and the expense of fitting up, these patterns will cost something more than ordinary wheels, but it is confidently predicted by those whose opinions are most valuable in such matters, that they will possess a greater amount of strength than any cast or combination wheel made. They are the invention of Geo. W. Whistler, Jr., Esq. (whose experience in all matters connected with railroads is sufficiently known) and intended to obviate the influence of contraction and expansion to an extent that will render them perfectly safe in all weather, at the highest rate of speed.

AXLES.—We will use none but the best fagoted, which are superior to any other.

SWITCH STANDS, LEVERS AND TARGETS.—We have adopted a stand that recommends itself for simplicity of construction, and the best guarded of any we know, invented by Van Blarcom, Superintendent of Machine Shops of the Housatonic & Naugatuck Railroads, but will make of any pattern desired.

SCREW CUTTERS.—The invention of Mr. Van Blarcom, a useful, cheap and successful machine.

BOXES AND PEDESTALS, of any size or pattern to order.

DRILLING MACHINES, of a very simple and very substantial character.

WHEEL PRESSES.—Made to order.

LOCOMOTIVE DRIVERS AND CYLINDERS.—Made to order.

Spherical Disinfecting Fluid,

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

The Following Certificate
selected from a number, can be seen at the store of the agents:

THANKSGIVING.

PROCLAMATION BY THE GOVERNOR.

AS A PEOPLE we have abundant reason for the exercise of gratitude to the Supreme Being, for the condition of health, the abundant harvest, the peaceable submission to civil law and order, and the general prosperity with which we have been favored, as a State during the past year. And as the unworthy recipients of these and other kind blessings, we are called upon to suitably recognize the Benevolent source, "whence cometh every good and perfect gift."

THEREFORE, I, LEONARD J. FARWELL, Governor of the State of Wisconsin, hereby appoint Thursday, the TWENTY FIFTH day of November next, as a day of Thanksgiving to ALMIGHTY GOD. And respectfully request the people of Wisconsin to properly observe the same.

In witness whereof I have hereunto set my hand and caused the Great Seal of the State to be affixed L. S. at Madison, this twenty fifth day of October, in the year of Our Lord, One Thousand Eight Hundred and Fifty Two.

By the Governor, LEONARD J. FARWELL.
CHARLES D. ROBINSON, Secretary of State.
Per JOHN W. HUNT, Deputy.

THE DEFEAT.

From the first returns of the late election received, there was the strongest probability of the defeat of the Whig party, and, as they crowded along, the assurance soon was made doubly sure. We are beaten, very badly beaten. To say that we do not feel it deeply, would be foolish,—would be absurd. We *do* feel it. But we have fought the battle stoutly and manfully to the last, and we are defeated, as in hundreds of cases those who have contended for the right have been defeated—by dint of superior tactics—by force of numbers.

We presented to the people as our principles, doctrines thoroughly American, and such as we thought would, and we knew ought to, commend themselves to the support of the Electors. We told them that the Loco Foco party, which was seeking their votes under the name of "democracy," was determined to carry out, if it succeeded, the pernicious doctrine of Free Trade, which had already crushed our Home Manufactures, broken down our Home Markets, and done inconceivable injury to the best interests of our country—that they had oft times shown their opposition to aiding in the development of the resources of the West, and to measures looking to the security of life and property upon the Western waters—that their policy, while utterly neglectful of, or hostile to, the welfare of this country, was aggressive and meddlesome as to other countries, despising and hating present tranquility and peaceful progress, and frenzied after turmoil—greedy for acquisition. As the representative of itself in the canvass, this party put forward a man of no note or name, distinguished by no remarkable services to his country, ruthlessly casting aside men whom any nation might be proud to honor.

On the other side we pointed to the records of the past as evidence that the Whig party had always stood up manfully for the interests of Home Labor—that it had maintained and still advocated, a beneficent policy—long ago maintained and advocated by Jackson, Jefferson, Madison, Adams and Clay, and by the great Statesman who has more lately gone down to the grave—looking to the development of the resources of our country in all their magnificent proportions, by lending to each part and parcel of the whole the aid which Government could constitutionally grant—striving to preserve here, west of the broad Atlantic, a "home for the exile and an asylum for the oppressed" of every nation, and to work here, on our own soil, for the nearer and nearer approximation to that exalted destiny which we all look for on behalf of this nation. As their representative in the canvass, the Whig party presented a man, whose name has been for forty years enrolled high upon the list of his country's great ones—a man whose private character is as spotless as his public career has been glorious—a man whose services on the tented field have been well nigh surpassed by his services in council.

Thus arrayed, the two parties met at the ballot box on Tuesday last, and the result is an overwhelming victory for Gen. Pierce and his partizans. We did what we could to prevent the result, but in vain. Our skirts are clear.

If the poor apology for even incidental protection to Home Industry, styled "the tariff of '46," shall be thrown aside, and a genuine Free Trade policy be adopted, destroying our already miserable home market entirely, crushing the manufactures of Pennsylvania, and of other portions of our country, under the iron wheels of British Progress, reducing wages to starvation point, and bringing upon the farmers of the West the knowledge of their folly, we shall not rejoice, but our skirts will be clear.

If a self-styled democratic Congress shall refuse to pass laws for the safety of life and property exposed to storms, and bars, and snags, and sawyers, upon our western waters—or if, with the aid of the whigs, a bill shall be passed, and be ruthlessly vetoed by a hostile President, our skirts will be clear from the wrong.

If, its the insane eagerness for foreign plunder and regardless of right, or reason, or Constitution, that mad successor of the Red Republicans of France, "Young America," under the lead of Senator Douglas and his allies of the Capt Rynders stamp shall breed mutiny, excite to aggression, violate treaties, and plunge us into a war for Cuba, or other foreign territory—our skirts will be clear.

We regard the triumph of our opponents as the triumph of every bad spirit, every bad tendency, over their opposites; and we fear for the result. But we have done what we could to prevent it.—We shall stand where we have always stood, abating no effort still, striving for the best, and taking care, when the first natural disheartening feeling shall have passed over, to lose no jot of hope that the right will yet triumph. Perhaps this triumph of our opponents was only necessary, to show the people to what lengths they will go when in complete possession of power and place. We shall see.

Political Innocents.

The Morning *News* claims to have achieved a special triumph hereabouts over unusual means and an unwonted combination. It thus glances at some of the seductive influences which its pure and hopest party had to resist and overcome in this city:

> The means that were resorted to in order to work our defeat were of a character rarely or never before employed in a political canvass: We have been accustomed to the slang, the misrepresentation and the abuse of party politicians. Such means have been so long used that they are without effect upon an intelligent people. *Money* was freely used to defeat us, and an attempt was made *to buy and sell the voters of this city.*

We cannot credit this story. It is not to be believed that any such attempt has been made upon the stern and incorruptible virtue of the Democracy. Somebody must have hoaxed the *News*. The idea that "money was freely used" and attempts openly made "to buy and sell the voters" in this city, is really monstrous. We are quite sure that our friend, Mr. DANIEL WELLS Jr., is ignorant of any such transaction. We will venture to guess that our fellow-citizen, Mr. J. A. NOONAN, Pay Master General to the Democratic forces, is entirely innocent of any such attempt. And we assert, with equal confidence, that the *News* itself, all through the canvass, has scrupulously abstained from "the slang, the misrepresentation and the abuse" so much in vogue among "party politicians." How could anybody suspect these political innocents of improper practices and unlawful expedients!

☞ The *Wisconsin* thinks that the result of the Election has very much damaged our reputation as a "sagacious politician." The *Wisconsin* has the advantage of us; *its* "reputation" its past damaging.

SHOOT THE DESERTERS!—Mr. AMOS REED, of the *National Democrat*, of Fond du Lac, posts Mr. M. C. DARLING, Mr. E. W. DRURY and their friends, in last evening's *Wisconsin*, as "bolters" and traitors to the democracy.

The Result in this District.

The *Free Democrat* still groans over Mr. DURKEE's defeat in this District, and repeats its wilful and deliberate fabrications, in regard to the course of the *Sentinel*. Its charge that the *Sentinel* "played a double game at the Congressional election," we have already branded as a lie in all its parts, and its author as an unscrupulous fabricator. The *Free Democrat* now varies its original falsehood as follows:

> The Sentinel—this is our point—assured the Whigs of this District that Durand had a good chance, publicly urged them to support him, and pledged its honor that the Whigs of this city would sustain Durand in good faith. And this too, when the leaders here were at work for Wells.

The *Sentinel did* assure the Whigs of the District that Mr. DURAND "had a good chance," and so believed. We urged them, moreover, privately as well as "publicly," on all occasions, and in all parts of the District, to support him. We promised too, that so far as our earnest counsel and utmost efforts could avail, the Whigs of this city would sustain Mr. DURAND in good faith. And that promise we redeemed *to the letter*. Whoever asserts to the contrary is a liar and the truth is not in him.

As to the *Free Democrat's* intimation that when we made this promise, we knew that the Whig "leaders" here were "at work for WELLS," we pronounce it, like the rest of the batch, *a wanton falsehood*. So far from knowing this, we *knew* that the Whig leaders were doing all they could for Mr. DURAND. And the vote *proves* it. In spite of the Herculean efforts made, on local and personal grounds, to induce Whigs to abandon Mr. DURAND, and vote for Mr. WELLS on the one hand, or Mr. DURKEE on the other, the great mass of the Whig voters in and out of the City, adhered faithfully to their cause and candidate.

The *Free Democrat's* extreme disappointment at the result of the Congressional canvass, may be all natural enough, but furnishes no excuse for its wanton, unprovoked and deliberate fabrications in regard to the *Sentinel*. The official canvass shows three things beyond all cavil or dispute:—

1st. That the party strength in this District was sufficient to elect Mr. WELLS, by a round majority, without the help of a single Whig or Free Soil vote.

2d. That the great mass of the Whigs, in this city, as throughout the District (except Kenosha) adhered steadfastly to their own candidate for Congress, he receiving *three-fourths* of their aggregate vote.

3d. That of the Whigs who dropped their own candidate, taking the District through, a *decided majority* voted for Mr. DURKEE, in preference to Mr. WELLS.

Against these *facts* the *Free Democrat* is quite welcome to try the effect of its *assertions*, so long as the patience of its readers and its own assurance hold out.

The Banking Law.

So far as the vote on the Banking Law has come to hand, the popular expression in its favor is overwhelming. Indeed the negative vote is insignificantly small. In all the Eastern, Northern and Middle Counties, the vote in favor of the law is very strong, while even in some portions of the West the result is far more favorable than could have been anticipated. Taking the State through, the majority in favor of the Banking Law will be immense.

We hail the result as a highly auspicious one to every business interest of our State. It is too, the crowning triumph of a long and earnest struggle between the friends and opponents of the Banking system. In the first Constitutional Convention in this State, held in the winter of '46-'47, the so-called "democracy" held undisputed sway and adopted a stringent prohibitory clause against all Banks and Banking in Wisconsin. This with other objectionable features led to the rejection of the Constitution, by the People, by a very decisive vote. In the second Convention the anti-Bank democracy, though not strong enough to re-enact their favorite prohibitory clause, had still sufficient votes to force the friends of a sound Banking system to submit to a "compromise" in the shape of the article which forms part of our present State Constitution. By the terms of this article an affirmative vote of the People, "for Banks," is the indispensable preliminary to any Legislative action on the subject, and then, whatever law the Legislature may pass, chartering Banks, or establishing a Banking system, must receive the direct popular sanction before it can go into effect.

The anti-Bank democracy in the second Convention, as well as among the People, regarded these two checks as an effectual bar to the establishment of Banks in this State—indeed their organs so declared when the clause was adopted. But when the preliminary question of "Banks, or No Banks" came to be submitted to the People last fall, democracy "took water." The leaders, though hostile as ever to the system, were afraid openly to oppose it, and the question was carried with scarce a show of negative votes. The battle thus avoided at the polls, however, was renewed and contested with great vigor in the last Legislature. Fortunately, a decided majority of the friends of a sound Banking system had been elected to both Houses, and after a long and animated struggle, a good law was passed and adopted. THE PEOPLE have just passed upon this Law and set their approving seal upon it by a majority as decisive as it is satisfactory. We rejoice in the result as one fraught with benefit to our whole State, and as the long wished-for consummation of a policy which the *Sentinel* has faithfully advocated from first to last.

> * * * Take now the Sentinel's own Ward, where Jenny Lind lives. Wells received 220 more votes than Pierce.—*Free Democrat.*

The *Free Democrat* can't tell the truth even when the record is at hand to keep it straight.—The vote in the 1st Ward was for Wells 767, for Pierce 622—difference 145 instead of 220, as the *Free Dem.* has it.

Now offset this with the vote in Kenosha, where the Black Swan lives, as telegraphed Tuesday night: Scott 203, Hale 162,—Durand 20! Durkee 415! We submit that the vote of the First Ward was in every respect a truer one than that of Kenosha.

THINKING BETTER OF IT.—The *Wisconsin* wisely declines to give its "reason" for thinking that we preferred Mr. DURKEE to Mr. WELLS "before election." In lieu of this, however, it submits "to a discerning public whether it would not have been more manly and honorable, when the result was doubtful—when Wells really needed friends—that the *Sentinel* should have spoken a word in his favor."

We "submit to a discerning public" whether the *Wisconsin* is not a goose.

JUDICIAL ELECTION RETURNS.—The vote of our State, with the exception of five small counties, (Chippewa, Crawford, Manitowoc, Portage and Richland) at the recent Judicial Election, foots up thus:—

Chief Justice.	
Edward V. Whiton,	12,449.
Charles H. Larrabee,	10,169.
Associate Justices.	
Abram D. Smith,	11,902
Samuel Crawford,	11,528
Marshall M. Strong,	10,945
James H. Knowlton,	9,740

> ☞ In the Northern District, such returns as have yet come to hand, show well for Mr. Shafter, but do not settle the question.—*Sentinel.*
>
> A reliable sheet that! The returns that had "come to hand," when the above was written, did not leave Shafter a ghost of a chance to come within 3000 votes of an election.—*Morning News.*

Rather a superfluous lie that! The *only* returns that had come to hand, when our paragraph was written, were from four towns in Washington and one in Jefferson County, all of which had given unexpectedly favorable votes for SHAFTER.

> ☞ JOHN B. MACY's majority for Congress in the Northern district over J. McMullen Shafter, is full 4000. SHAFTER is literally buried. The Sentinel will soon write his epitaph.—*Wisconsin.*

We leave that "grateful task" to the *Wisconsin*, which delights "in trampling upon those who are down, and fawning upon those who are up."

Park Benjamin's Lectures.

It will be seen by the subjoined correspondence, that Mr. PARK BENJAMIN, in compliance with an invitation from the Directors of the Young Men's Association will deliver another Lecture this evening at Gardiner's Hall, on the interesting topic of "The Stage before and behind the Curtain." We cannot doubt that the Hall will be again well filled to hear this agreeable Lecturer:

YOUNG MEN'S ASSOCIATION ROOMS, }
Nov. 3d, 1852. }

At a meeting of the board of directors of the Young Men's Association of the city of Milwaukee, this day held, the following resolutions were adopted, to-wit:—

Resolved, That this Board invite Park Benjamin to lecture before the Association at such times as may be designated by himself.

Resolved, That the Secretary communicate these resolutions to Mr. Benjamin.

Mr. Park Benjamin,

SIR:—By order of the Board of Directors of the Young Men's Association of the City of Milwaukee, I have the honor to communicate the above resolutions, and request your reply.

Very respectfully, Yours, &c.,
J. R. BRIGHAM,
Sec'y Young Men's Association.

UNITED STATES HOTEL, Nov. 4.

SIR—I am happy to be able to accept the courteous invitation of the Young Men's Association of Milwaukee, and will give one Lecture to-morrow (Saturday) evening, as well as other lectures, before I leave your beautiful city, provided I shall be authorized in so doing by the audience present.

I am, very respectfully,
Your ob'nt. servant,
PARK BENJAMIN.

THE MAILS! THE MAILS.—No mail again last night! and none for three days previous, our last New York dates being of Friday Oct. 29th—away back, ages ago. The gale last night was more furious than ever, and it was—

"Heighho! the wind and the rain!"—

all the night long. It is fun alive, for us who are obliged to get out so many columns of daily paper, to have no material. Of election news, we have had enough, and our cry is—

"Bring us no more Reports!"—

But the paper must come out—the "children cry for it." We might scold about the result of the election, and some little of that we do, but it don't make out "copy" enough. We shall do something desperate soon, if the elemental fury does not subside and the boats come along.

FOUR DAYS WITHOUT A MAIL!

No vessel left port yesterday or last night. The *Pacific* remained in Chicago all day, not daring to tempt the wind demon. There was a report in circulation that she had not arrived at that port on her up trip, but it was without foundation.

ANOTHER WRECK.—The new three masted schooner *Buckeye State* went ashore on the South Point yesterday morning at about 4 o'clock. In attempting to enter this port, she missed the entrance, and in standing off, her fore and main topmasts and jib boom were carried away. The crew then let go both anchors, and she drifted over the reef, and thence ashore, where she lies, broadside on, headed south.

When our informant left here yesterday, her cargo of apples and cider was fast coming ashore, both hatches being off, and the sea making a clean breach over her. She lies in about 5 feet water; her larboard bulwarks and stanchions are gone, and she looks a perfect wreck. What condition her hull is in, it is impossible to tell, but if not got off before ice makes in the lake, she must go to pieces.

The *Buckeye State* is a new vessel, having made but one trip to Chicago. She cost nearly $15,000, and is insured in the Astor Insurance Co, N. Y., for $10,000. Her cargo consists of 259 tons railroad iron for Chicago (insured probably); and a quantity of apples and cider for this port, not insured.

SAD ACCIDENT.—A. F. Phillipp, who keeps a coffee house, a short distance north of the Post-office, was severely injured yesterday forenoon on Market square, by the bursting of a cannon, which the Hunkers were firing in glorification over the result of the recent election. Mr. Phillip's left eye is so severely bruised that it is thought its sight is entirely destroyed. He was otherwise considerably injured.—*Free Democrat.*

For the Sentinel.

RELIGIOUS SERVICES—Every Sabbath morning, by the *New Church Society* at their Hall, corner of Wisconsin and Main streets.

For the Washington Monument.

WAUPUN, Nov. 3, 1852.

Messrs. Editors:—Enclosed you will find three dollars and twenty-seven cents, donated by the voters of the town of Waupun to the Washington Monument Association. Please receipt through paper the amount to me, as our town Board authorized me to take charge of the amount.

W. N. TAYLOR.

(The above contribution will be handed to the clerk of our Common Council, and transmitted to Washington with the amount raised in this city—*Ed. Sentinel.*)

THE THRONE OF GREECE.—Late reports from Europe say that negotiations are in progress between the Bavarian Government and the Governments of France, England and Prussia, respecting the succession to the throne of Greece.—Prince ADELBERT, of Bavaria—brother of King OTHO—is named as the applicant, and has embraced the Greek religion, a preliminary step to the throne. ADELBERT is the fortunate youth for whom the Emperor of Russia destined the hand of the Princess VASA.

CRIME IN NEW YORK.—The reporter of the *N. Y. Times* recently visited the City Prison, where he obtained the following information as to the persons now in confinement there for capital crimes:

> There are two men by the names of Aaron Diamond and Miliher Schafter, under indictments for the crime of arson, and are to be tried for their lives. On the same corridor, are James Dolan, charged with the murder of a man in Mulberry-st.—James Doyle, for killing his landlady in Pearl St.—Peter Gillen, for killing a man named Foster in Cross-st.—Nicholas Howlett, Wm. Johnson and Wm. Saul, for the murder of a night watchman on board of a schooner in the East River.—Patrick McCormick, for murdering a fellow lodger in Catherine st.—Henry Carnel, who murdered an old man in Dey-st about two years ago, is awaiting his new trial,—Joseph Clark, who killed policeman Gillespie of the 4th Ward, and James Sullivan who took the life of Pat'k Smith in Cliff-st are among the prisoners convicted of murder, and will be sentenced to-morrow by the Supreme Court. All the others, with the exception of Carnel, have not yet been tried and will probably be arraigned at the Court of Oyer and Terminer in November next.

> TRIAL FOR MURDER.—The trial of *James Maher*, indicted for the murder of his wife and child, in the town of Koshkonong, in July last, came on the late term of the circuit court of this county. The jury returned a verdict of "guilty of murder in the first degree," and in compliance with section 2, chapter 133, of the revised statutes, as amended at the last session of the legislature, designated the punishment to be "imprisonment for life in the penitentiary."—*Watertown Chron.*

LETTER FROM HENRY K. WHITE.

Messrs. Editors:—

It is stated in the *Morning News* of this date, that I desired that paper to say "that I did not oppose the whole Democratic ticket" at the recent election, &c.

Allow *me* through your paper to say, that I have desired no such thing of the *News*. I did desire Mr. SHAW to *correct an article* which appeared in the *News* of Tuesday last, charging me "*with wanting a life-lease of the office of Clerk of the Court—of bolting, because I could not obtain such lease—of trying to procure the nomination and election of* C. C. WHITE, *as Clerk, and remaining myself Clerk de facto, &c., &c.*" because that article was *false*, in the above particulars, and a *ridiculous attack*. I did tell Mr. SHAW that my opposition was confined to two of the nominees; and, I believe, it is well known that I did openly oppose two nominees on the democratic ticket. I do not propose to apologize for so doing; the one is elected, and will, doubtless, make an efficient officer. There was one other democratic nominee, whose election I should have opposed, had I lived in the district in which he was nominated.

Should the *News* think this statement *gratuitous*, it is nevertheless true, and no *more* gratuitous than the threat of the *News* "*to withhold its support from me*, should I hereafter *be nominated*, or, (in its own words,) should I chance to *smuggle myself through a Convention.*" I will add, that my reasons for bolting, and the reasons for Mr. SHAW's threat that *he will* bolt, are precisely the same.

Very Respectfully, H. K. WHITE.
Nov. 5, 1852.

For the Daily Sentinel.

CORRESPONDENCE.

As the mutual friends of Mr. CHARLES A. HAMILTON and Mr. DANIEL SHAW, we take pleasure in submitting to the public the following correspondence, and to add that it has resulted in a friendly and honorable termination of the difficulty between them.

J. E. ARNOLD.
LUCAS SEAVER.

MILWAUKEE, Nov. 4, 1852.

LUCAS SEAVER, Esq.,

SIR:—Having as the friend of Mr. CHAS. A. HAMILTON had an interview with you, as the friend of Mr. DANIEL SHAW, by mutual agreement, I take the occasion to state, in behalf of Mr. HAMILTON, that his recent conduct towards Mr. SHAW has been occasioned by an article, believed to have been written by Mr. Shaw, and published in the "Morning News" of the 2d inst., which he deemed injurious to his honor and reputation.—He feels that he ought to receive and therefore demanded and still demands of Mr. Shaw, a suitable retraction of, or apology for the publication of the same.

Very respectfully, &c.,
J. E. ARNOLD.

MILWAUKEE, Nov. 4, 1852.

J. E. ARNOLD, Esq.

SIR:—In reply to your note of this morning, I have to inform you that my friend Mr. Shaw is the author of the article therein alluded to, and which was published in the "Morning News" of the 2d inst. It is also proper for me to say that such article was based upon a letter published in the "Sentinel" of the 1st inst., over the signature of your friend Mr. Charles A. Hamilton, which letter Mr. Shaw regarded as personally offensive and insulting.

Very respectfully, &c.,
LUCAS SEAVER.

MILWAUKEE, Nov. 4, 1852.

Lucas Seaver, Esq.,

SIR:—

I have the honor to acknowledge the receipt of your note of this morning, stating in substance that Mr. Shaw was the author of the article in the *Morning News* of the 2d inst., and that the same was occasioned by the letter of Mr. Hamilton, published in the *Sentinel* of the 1st inst., which Mr. Shaw deemed personally offensive and insulting.

It did not occur to Mr. Hamilton how such a construction could be put upon the contents of that letter, in view of the facts and circumstances of the case. I will add in his behalf, that at the time of writing that letter, his object was to assure the person to whom it was addressed, and also the public, of the genuineness of Captain Schuyler Hamilton's letter therein mentioned, and that he had no intention to personally injure or insult Mr. Shaw. Very respectfully, &c.,

J. E. ARNOLD.

MILWAUKEE, Nov. 4.

J. E. ARNOLD, Esq.

SIR:—I have received your second note, and in reply—deem the statement made by you in behalf of your friend Mr. Hamilton—"that he did not intend to personally injure or insult Mr. Shaw"—ample and satisfactory.

I therefore, "as the article referred to was based upon Mr. Hamilton's letter," in behalf of my friend Mr. Shaw, fully, unreservedly, and with pleasure withdraw the offensive language used by him, deeming it an act of simple justice due Mr. Hamilton.

In conclusion, permit me to express the hope, that the same friendly relations and esteem which have existed between our friends in times past, will extend to the future.

Very respectfully, &c.,
LUCAS SEAVER.

The following vote is given by towns, so far as we have been able to obtain the official returns. Where it is not by towns, we give the official aggregates. Although it is no fair test as a comparison with the Presidential vote this year, yet it may serve to aid in estimating results:

Senator, Dunn, dem., is elected.

FOND DU LAC CO.

One correspondent, (to whom we are indebted for the vote on electors in 15 towns) writes that Macy's majority is 583 as far as heard from. Another friend writes that Pierce's majority in the county will be about 500, and Macy's 700.

The vote in Waupun, stood as follows:
Scott 69, Pierce 89, Hale 86.
Shafter 91, Macy 87, McKee 62.

DODGE CO.

In Louisa, Macy has 18 majority, in Lebanon, Emmet, and Shields, 401 maj. In Beaver Dam, Shafter has 100 majority, and also runs ahead in that assembly district: Davis, dem. is elected to assembly by 83 maj.

In Louisa, Bowen, loco, has only six majority over Foster, whig.

The vote for Banks is almost unanimous.

DODGE COUNTY.

Fox Lake, Nov. 3, 1852.

Messrs. Editors:—I can send no cheering account of election from this Assembly district, composed of Fox Lake, Beaver Dam, Trenton, Calamus and Westford, in Dodge Co., known as the Beaver Dam District.

Davis, democrat, is elected by 83 maj. Pierce and King majority 108, and Westford to hear from, which will increase it to perhaps 150.

Shafter has a majority in the district, amount not yet ascertained.

Vote for Banks almost unanimous. No further returns. Yours, &c.,

W. E. S.

COLUMBIA CO.

We give in our table such returns as we have of the electoral ticket. From the other returns there seems no doubt that James T. Lewis, dem., is elected to the Senate, and John Q. Adams, whig, to the Assembly in the south district.—Macy's majority for Congress in six towns 76.—Our correspondent writes that Pierce and Macy will probably have small majorities in the county. The whig county ticket runs ahead thus far.

DARTFORD, Nov. 4

Messrs. Editors:

The following are the majorities in this town—Scott and Graham got 11 majority, where Democrats calculated on 25 for Pierce and King.—Our forces were not all out or it would have been larger:

For President—Scott's majority, 11
For Congress—Shafter's " 6
For Senator—Bugh's " 52

The rest of the ticket was mostly a mixed one on local matters, and went every way.

Yours &c., J.

The returns on Senator in Marquette and Waushara indicate the election to the State Senate of Wm. A. Bugh, Whig, by a decided majority.

WORTHY OF ALL CONFIDENCE.
DR. STORM'S CELEBRATED SCOTCH COUGH CANDY.—No medicine ever invented has gained more popularity than this, nor is there any more deserving of it. There are so few compounds worthy the high merit claimed for them, that when one which is really destined to benefit the afflicted is put forth, we are slow to believe our most intimate friends, when they praise it. But Storm's Scotch Cough Candy is sold at a price so low, it must be evident to all that if it did not sustain a good reputation, enough would not be sold to pay for advertising. Almost every person that uses this article according to direction will feel justified in recommending it to others, it needs but a small outlay of money and time to satisfy the most sceptical that it is worthy of all confidence as a remedy in diseases of the Chest and Lungs.

Railroads and Cattle.

Decision of the Supreme Court of the State of New York. Who are the Trespassers?

The long discussed question, as to whether Railroad Companies shall pay for cattle they kill, or the owners of the cattle pay for throwing trains off the track, has at last been decided by the Supreme Court, in the recent case of Skinner *vs.* the New York and Erie Railroad Company, an action for trespass for killing a cow, in which Judge Gibson decided a company was answerable for gratuitous damage, resulting from gross negligence.—It appears, in this case, that the train was going at the usual speed; that it was within three hundred feet of the spot where the cow jumped suddenly from the ditch to the track; that the engine was instantly reversed, and the signal given to break; and that alacrity could do more. The retropulsive power at the disposal of the engineer was applied in vain. Had he been able to stop the train in time to save the cow, he could not have done so without periling the passengers.—Granting that the cow might have been seen at the distance of fifty rods by the way side, and that the train might have stopped within it; yet the engineer was not bound to stop it. He had no reason to apprehend that she would leap into the jaws of death, or that it was necessary to anticipate her.

But high above this stands the impregnable position, that a railway company is a purchaser, in consideration of public accommodation and convenience, of the exclusive possession of the ground paid for to the proprietors of it, and of a license to use the greatest allowable rate of speed, with which the person nor property of another may interfere. The company on the one hand, and the people of the vicinage, on the other, attend respectively to their particular concerns, with this restriction of their acts, that no needless damage be done. But the conductor of a train is not bound to attend to the uncertain movements of any assemblage of those loitering or roving cattle by which our railways are infested. Any other rule would put a stop to the advantages of railway travelling altogether. And, for what deprive the country of one of the best improvements of this most wonderful age? For no more than to enable a few unpastured cows to pick up a scanty subsistence in waste fields and lanes. If the bullocks, cows, horses, sheep, or swine of the neighborhood, were allowed to block the way, the prohibition or intrusion by drovers or travellers, using their own means of conveyance, would be of little use. For the sake of the company and the passengers, the conductor and the subordinates will be vigilant to remove obstructions, but the protection of the property is merely incidental. If the owner of it does not attend to it, the company's servants, having their own business to mind, are not bound to do so, and he who trusts his property to the chance of accident, is bound to stand the hazard of the die. Knight *vs.* Abert, 6 Barr, 472 is to the point. In that case the intrusion was on woodland; in this it was on the exclusive possession of ground paid for as an incorporeal hereditament.

So far, we have treated the case as if the plaintiff's skirts were clear; but they are not. By the common law of England, an owner of cattle is bound to keep them in an inclosure, or in custody at his peril; for every entry by them on another's possession, is a trespass; by the Common Law of Pennsylvania, he may let them go at large without incurring liability for an entry by them on woodland or a waste field. To entertain an action for an inappreciable injury, would encourage vexatious and unprofitable litigation, and be contrary to the maxim *de minimis*, which is peculiarly appropriate to the circumstances of the people here. But if such an intrusion would occasion substantial damage, the English rule would be applicable to it, on the principle that the owner of a bull which gored another's ox must pay for it. Is not the intrusion of an animal on the Railway, which has a direct tendency to throw a train off the track and endanger life and member, an injury to the persons involved in the risk? It is conceded that an American company is not bound to fence its railway, as an American farmer is bound to fence his fields, and this shows that persons who suffer their cattle to go upon it, do so on their own responsibility. Every English Railway is fenced—not to protect it from cattle, for none are at large; but to prevent detriment or detention from other causes. In a country so new and so sparse as ours, of which the trunks of the principal railways are more extensive than on the Island of Great Britain, the cost of fencing them would be greater than could be borne.

The rights and responsibilities of a people are shaped by the circumstances of their condition. If they have railways they must be content to have them in the only way they are practicable; and the English rule must be applicable to them. If an owner suffer his cattle to be at large, it must be at the risk of losing them or paying for their transgressions. The very act of turning them loose, is negligence as regards any one but an owner of a forest or waste field; and the owner of them is consequently responsible to every one else. That he is not answerable for them to a railway company criminally, like a caitiff who has laid a log or a bar across the track, is because mischief was not intended by him. But no prudent man in his predicament would be the first to make a stir about it. * * * * * * *

The responsibility of a railway company for all but negligence or wanton injury, is a necessity for its creation. A train must make the time necessary to fulfil its arrangements with the Post Office and passengers, and it must be allowed to fulfil them, at the sacrifice of secondary interests put in its way; else it could not fulfil them at all. This maxim of *Salus Populi* would be inverted, and the paramount affairs of the public would be postponed to the petty concerns of individuals.—Every obstruction of railway is unlawful, mischievous and abateable at the cost of the owner or the author of it, without regard to his ignorance intention. It may seem cruel to make a dumb brute suffer for the fault of its owner; but it must be remembered that the lives of human beings are not be weighed in the same scales with the lives of a farmer's or a grazier's stock; and that their preservation is not to be left to the care which a man takes of his uncared cattle. Allowing them to prowl for their food, he may not wash his hands of the consequences of it. In a country so obnoxious to the charge of indifference to human safety, it is a high and holy charge of the Courts to hold to their duty, not only those to whom it is immediately committed, but also those by whose defaults it may be remotely endangered; and to hold them hard. We are of the opinion that an owner of cattle killed or injured on a railway, *has no recourse* to the company or its servants; and that *he is liable for damage done by them to the company or its passengers.*

Western Plank Road.

A large portion of the Watertown, Hubbellton, Portland and Waterloo Plank Road is planked. The whole line is expected to be in traveling order in about two weeks. The Bridge across the Crawfish has been passable for the past week. The company are deserving of great credit for the energy with which they have pushed forward this noble work. They have labored under serious pecuniary disadvantages, but they have all been overcome. The completion of the road, adding as it must, 25 per cent to the business of our village, should be observed by a general jubilee.—*Watertown Chronicle.*

Wolfe's Schiedam Aromatic Schnapps.

MANUFACTURED BY THE PROPRIETOR EXclusively, at Schiedam, in Holland, by a process peculiar to his own factory. It is flavored and medicated, not by the common harsh berry, but by the choice botanical variety of the aromatic Italian Juniper berry, whose more vinous extract is distilled and rectified with its spiritual solvent, and thus becomes a concentrated tincture, of exquisite flavor and aroma, altogether transcendant in its cordial and medicinal properties, to any Hollands gin heretofore known.

In Gravel, Gout and Rheumatism; in obstructions of the Bladder and Kidneys its effects are prompt, decided and invariably reliable. And it is not only a remedy for these maladies, but in all cases, in which they are produced by drinking bad water, which is almost universally the cause of them, it operates as a sure preventive.

The distressing effect upon the Stomach, Bowels and Bladder of travellers, new residents, and all persons unaccustomed to them, produced by the waters of nearly all our great inland rivers, like the Ohio, Mississippi and Alabama, from the large quantity of decayed vegetable matter contained in them in a state of solution, is well known; as is also that of the waters of limestone regions, in producing Gravel, Calculi and Stone in the Bladder. The AROMATIC SCHIEDAM SCHNAPPS is an absolute corrective of all these injurious properties of bad water, and consequently prevents the diseases which they occasion. It is also found to be a cure and preventive of Fever and Ague, a complaint caused by the conjoint effects of vegetable malaria in the atmosphere, and vegetable putrescence in the waters of those districts in which it principally prevails. The AROMATIC SCHIEDAM SCHNAPPS is consequently in great demand by persons travelling, or about to settle in those parts of the country, especially; as well as by many in every community where it has become known, on account of its various other remedial properties.

In all cases of a dropsical tendency, it is generally the only remedy required, when adopted in the early stages of the disease. In dyspeptic maladies, when taken in proper quantities, as a diet drink, and especially at dinner, it is found by uniform experience, to be eminently efficacious in the most obstinate cases, when even the best of the usual remedies have failed to afford more than more temporary relief. In cases of Flatulency, it is an immediate and invaluable specific; and it may be administered in diluted and proportionate quantities, even to young infants, in all those paroxysms of griping pain in the stomach and bowels, to which they are especially subject, as well as in the colic of grown persons.

Its judicious adoption in connection with the principal meals, or when a sense of exhaustion dictates its use, never fails to relieve the debility attendant upon protracted Chronic maladies, low temperaments, and exhausted vital energy, by whatever cause induced. These are facts to which many of the most eminent medical men, both in Europe and the United States, have borne testimony, and which are corroborated by their highest written authorities.

The AROMATIC SCHIEDAM SCHNAPPS is put up in good strong bottles, neatly covered and labeled, accompanied by an Essay upon its properties and uses. For sale by the principal Druggists in this City and United States.

[From the "New York Medical Gazette," Oct. 1st.]

HOLLAND GIN AS A MEDICINE.

In our last number we accompanied the publication of a circular on this subject from our fellow citizen, Udolpho Wolfe, Esq., with a brief commentary, expressive of our own views. Since then we have been employing this agent, and thus far with favorable results. But we are in the receipt of several communications on the subject, from medical men, which serve to show that Mr. Wolfe's Aromatic Schiedam Schnapps is very extensively in use, and, in the hands of physicians, is proving itself as a stimulating diuretic to be eminently successful after other medicines with this intent had been tried in vain. In one of the cases thus reported, abdominal dropsy has been cured, and the necessity of tapping averted; and in another, a distressing case of gravel, so called, has been entirely removed by the passage of a calculus of considerable size, which is ascribed to the use of only two bottles of this article.

We know not the object of Mr. Wolfe in designating his preparation by the singularly euphonious name of "Schnapps," nor of his denominating it in his advertisements, the "Concentrated Tincture of Juniper," instead of perpetuating its ancient title of Holland Gin. It is true that he admits it to be nothing more than the latter article in its pure state, unadulterated by noxious drugs, and hence he contra-distinguishes it from Gin of commerce, nearly all of which, as is well known, is manufactured here and elsewhere from inferior whiskey and refuse drugs. The name he has given it, however, may serve the purpose of designating his article, as prepared exclusively for medical purposes, and thus commend it to physicians for whose convenience it is on sale only by reputable druggists and apothecaries.

As respects its medicinal and curative effects, we understand him to claim only that it is a pure and reliable article of Holland Gin, and as such worthy of the confidence of physicians, in those diseases for which they are wont to prescribe it, and have hitherto only been restrained, by finding it impracticable to obtain the article in a pure state. Nor should any prejudice against alcoholic medicine deprive the afflicted of the benefit of this article, which from time immemorial has held its place among the remedial agencies of the Materia Medica, if it be found worthy of confidence by continued experience. At all events, those who persist in the employment and toleration of other alcoholic medicines, as tinctures, bitters, &c., and especially those who prescribe Gin under any circumstances, must all unite in giving the preference to a pure article over the manifold adulterations so rife in the market. Mr. Wolfe liberally supplies physicians with a sample bottle for analysis and trial, as set forth in his circular, and stakes the reputation of the remedy upon the innocence, safety and efficiency of his Holland Gin, when used under medical advice; and pledges his own character in business that the article will not disappoint any who use it.

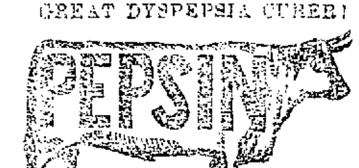
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the Clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr. HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ OBSERVE THIS.—Every bottle of the genuine Pepsin bears the written signature of J. S. HOUGHTON, M. D., sole proprietor, Philadelphia, PA. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

CHERRY PECTORAL

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence of this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every state, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

HAWKINS'

STAVE DRESSING MACHINE.

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves PER HOUR,

straight, winding or crooked. In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length of any reasonable width, and *to any requisite bilge*, and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is then ready for the truss hoops. The dressing of the sides and jointing of the edge of the stave is performed perfectly. The machine is made of iron, is strong and durable, and is not difficult to keep in good order for use. Six horse power is sufficient to drive the machine with all the speed necessary. [illegible]

The Subscribers having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In the great saving of expense of transportation of dressed over the rough stave, the rapidity and perfect manner with which it performs its work, consists the value of this machine.

Satisfactory testimonials can be furnished if desired.

MISCELLANEOUS.

HAY PRESS.

THE IMPROVED PATENT LEVER RAILWAY PRESS EXCELS ALL OTHERS now in use for pressing Hay, Cotton, Hemp, Wool, Hops, Rags, &c. &c., and will be warranted to perform well and do double the work that any other press can with the same number of hands, with less than half the draught; a small boy can attend the horse, and the running back of the follower with ease. The time required in running up the follower, is fifteen seconds. A bale of Hay can be pressed in less than one minute, at ordinary all day work; seven or eight bales can be pressed and bound per hour. Bales of Hay can be pressed, weighing over 400 lbs., measuring two feet square and four feet long. Bales of Cotton can be made compact enough without compressing.

The construction of this press is such that it does not require a building expressly for it, as it may be placed in any barn or shed, and the horse may move in any direction, or at any distance from it; and when the bale is ready for delivery, it is discharged instantly, and the follower gradually recedes as the Hay is placed in the box.

The construction is so simple that any man can make a Press, or keep it in order.

The travel for a horse, in running up a bale, is fifty feet, while in a screw press, the travel is one mile and a half in running the screw up and down. We have one new Press now in operation at Waukesha, Wis., and two others in process of construction.

So great a failure of the hay crop has occurred in all of the Eastern and Atlantic States, the present season, cannot fail to ensure a most profitable business to any persons in Wisconsin or Illinois, who may take hold of this business with energy. The hay may be shipped during the present fall, and three months of the spring navigation, before another hay crop is raised.

REPORT OF THE PREMIUM COMMITTEE OF THE AGRICULTURAL SOCIETY OF NEW-YORK.

"The Lever Railway, Hay and Cotton Press, is a machine combining great power, convenience of operation, and constructed on true philosophical principles, and is a great desideratum to the river counties, and all places not contiguous to market, and also to cotton and hop growers; and the Committee think they do not exaggerate when they say it is, in their opinion, the perfection of machinery for that purpose. The Committee therefore award a premium of $5."

The Press, with the right to use it, can be purchased at less than half the cost of any other Press now in use. For rights for a single Press, or Towns, Counties and States, application should be made to the subscriber.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament and bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralyzes the absorbents, and renders them unable to take up and replenish the wasted form with sound materials. From the very moment that this beautiful masterpiece of God becomes afflicted with pain, the influence is experienced throughout the whole system, no matter in what particular bodily member the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach; whether it arises from internal derangement, or is the result of external injuries, still the pain exercises the same influence throughout every portion of the human system. Not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers tortures, no matter how slight or severe his paroxysms may be. No one can be happy while suffering its torments.

RADWAY'S READY RELIEF

WILL STOP THE MOST DISTRESSING PAINS.

Its effects are like electricity; it reaches the most distressing parts [illegible] system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the most distressing pains of this cruel complaint. In a few minutes the pain-stricken sufferer experiences the most delightful relief. Radway's Ready Relief has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with proper nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains; but *to deaden the nerves, to weaken and stupefy the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.* If this practice is continued for any length of time, the patient will not only be crippled for life, but his brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE.

And all other dangerous and narcotic influences. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healing influence which Radway's Ready Relief imparts to the nerves, instead of the lifeless, sleepy and benumbing effects which Morphine, and other preparations containing this poison, produces on the system.
